Symposium

The IEEE EFTF-IFCS 2021 is a joint conference of the European Frequency and Time Forum and the IEEE International Frequency Control Symposium. The 2021 joint conference, originally planned for Paris in April, has been converted to a virtual conference in July 2021. The 2022 joint conference will now take place in Paris in April 2022.

TOPICS OF INTEREST

- » Group 1: Materials, Resonators, & Resonator Circuits
- » Group 2: Oscillators, Synthesizers, Noise & Circuit Techniques
- » Group 3: Microwave Frequency Standards & Applications
- » Group 4: Sensors & Transducers
- » Group 5: Timekeeping, T & F Transfer, Telecom, GNSS and Applications
- » Group 6: Optical Frequency Standards & Applications

FEATURING

- » **Invited and contributed presentations:** Find out the latest advances in your area
- » **Tutorials:** Get introduced to a new field
- » **Plenary session:** Engaging, conference wide speakers
- » **Interactive Session:** Meet with colleagues from around the world
- » **Awards:** EFTF and IFCS Awards, Student Paper Competition
